

THIS IS THE SAFETY AREA

The diagram shows a central white box representing the active area, surrounded by a light blue trim area, a light pink bleed area, and a light green safety area. Four registration marks (crosshairs) are positioned at the corners of the safety area. Three arrows point from the text labels to their respective areas: a pink arrow for the safety area, a black arrow for the trim area, and a green arrow for the bleed area.

TRIM AREA (PAPER SIZE)

THIS IS THE BLEED AREA

ACTIVE AREA
